ENVIRONMENTAL DISCLOSURE LABEL
Renaissance Power & Gas, Inc.
For the Period of July 1, 2025 to June 30, 2026

Electric suppliers and distribution companies are required to provide customers with a disclosure label. The label enables customers to look at the energy sources, air emissions, and information about the supplier's company in order to make a more informed choice of a power supplier.

Generation Price				
Average price per kWh at different levels of use.				
Residential				
Average Usage/ Month	250 kwh	500 kwh	1,000 kwh	2,000 kwh
National Grid				
Commercial				
Average Usage/ Month	1,000 kwh	10,000 kwh	20,000 kwh	40,000 kwh
National Grid				
Contract				
• **Minimum contract:** No contract minimum • **Contract Terms:** See your contract Terms of Service for information about your rate plan				

Power Sources	
Demand for electricity from Renaissance Power & Gas, Inc. (RPG) in the period was met from the following sources. RPG procures 100% of its power from the New England System Mix. Total Power Sources may not equal 100% due to rounding.	
Biomass	1.307%
Coal	0.106%
Diesel	1.655%
Hydroelectric/Hydropower	8.254%
Import Power	7.518%
Municipal Solid Waste	0.396%
Natural Gas	37.373%
Nuclear	19.025%
Oil	5.784%
Other Renewable	4.422%
Solar	7.687%
Wind	6.472%
Total	**100.000%**

Air Emissions	
Carbon dioxide (CO2), nitrogen oxide (NOx), and sulfur dioxide (SO2) emission rates from these sources, relative to the regional average, and to the emission rates of a new generating unit.	
New England Average (lbs/MWh)	
CO_2	619.603
NO_2	0.496
SO_2	0.235

Labor Union	
Labor characteristics were calculated by dividing the number of certificates identified as union labor on the NEPOOL-GIS GIS Certificate Statistics – Other Attributes Report by the total number of certificates by fuel on the NEPOOL-GIS Certificate Statistics – by Fuel Report. Subtracting that number from one results in the without union labor percentage.	
With Union Labor	18.3%
Without Union Labor	81.7%
Total	100.0%

Notes

1. Electricity customers in New England are served by an integrated power grid, not particular generating units. The above information is based on the most recently available information for the NEPOOL Generation Information System. Renaissance Power and Gas procures all of its electricity supply through system power contracts from the system, not from specific generating units.
2. Renaissance Power & Gas, Inc. served a carbon-neutral product, offsetting all carbon associated with a customer's monthly usage through the purchase of carbon credits.
3. See reverse side and your Terms of Service for further information on this label. For additional information, you may contact Power & Gas, Inc. at www.renaissancepowerandgas.com or by phone at (888) 811-0877, the Massachusetts Department of Public Utilities Consumer Division at 1-877-866-5066, www.mass.gov/dpu, or the Massachusetts Division of Energy Resources, www.mass.gov/doer.
